

## EUROBOIS AWARDS: the contest that showcases the timber & woodworking sector's innovations and stakeholders

28 innovations fight it out to become winner of the 2022 edition!

The 2022 edition of EUROBOIS—the benchmark trade show of the timber, woodworking machinery, and fitting-out sectors—is being held at Eurexpo Lyon from 14–17th June, 2022. Among the show's highlights, the EUROBOIS AWARDS will be rewarding innovations, new products or services, and technical evolutions presented by industrial and manufacturing companies. This year, the contest itself innovates! To further heighten the visibility of the sector's innovations and its stakeholders, companies can pitch their entries on the EUROBOIS TV stage. Other new features for 2022 include a new prize awarded by a panel of student judges: the “Coup de cœur des étudiants”—the students' pick. All guaranteed to make this go-to gathering of the sector's professionals even more compelling.

### What are the EUROBOIS AWARDS?

The EUROBOIS AWARDS are a product launch platform that acclaims **the innovative character, design, and performance of a product or service**, with an eye also on the **contestant's CSR practices, the environmental quality of the product or service, its certification, its usefulness to professionals, and its cost effectiveness.**

This year's entry process, open to all exhibitors, has been simplified to make it easier for companies to participate. The contest magnifies each entrant's visibility among the sector's professionals ahead of and during the trade show, with **all competing innovations featured on the show's website, social media channels, and the Eurobois Connect mobile app.**

Visitors can easily identify these innovations inside the show thanks to dedicated signage.

**HEAD TO THE TV STAGE AT THE CLOSE OF DAY ON 15th JUNE  
FOR THE PRIZE PRESENTATIONS**

## Pitches and stand visits to promote innovations and to champion projects

To promote their entries, contestants will have the opportunity to present their innovation in a **5-minute pitch on the Eurobois TV stage on Tuesday, 14 June, starting 10am**. This presentation will allow competing companies to meet their audience while winning over the judges with their ability to champion their innovation.

The next day, the second day of the show, the panel will make a tour of stands to examine each shortlisted innovation and speak with its presenters to discover its new features in detail.

## Prizewinners elected by a panel of professionals and students

As is customary, the judges' panel will include professionals representing the timber & woodworking sector's trades (furniture making, fitting-out, joinery, carpentry, etc.). To widen this scope for better representativity of all audiences, **this year's big novelty is the creation of a panel of student judges, all taking courses in architecture, joinery, fitting-out, or engineering.**

This newly created student panel will be able to cast a new eye on competing innovations. It's also an endeavour by EUROBOIS to embrace the sector's future generations who will be tomorrow's professionals. This immersion in the professional world is also of benefit to the students themselves, whose presence at the show introduces them to the sector's network of stakeholders. The student judges will award a specific prize to the winning company, along with the distinction "Coup de cœur des étudiants"—the students' pick.

### Professional judges' panel:

#### **Chairman of the professional judges' panel:**

**ARNAUD GODEVIN**, Principal of *Ecole Supérieure du Bois* (higher college of timber engineering)

#### **Professional judges:**

- **Jerôme Carraz**

Manager of the Institute of Timber Framework and Construction, COMPAGNONS DU DEVOIR ET DU TOUR DE FRANCE

- **Vincent Charroin**

Chairman of SAS CHARROIN TOITURES, Chairman of the "Framework & Roof" professional chamber of BTP RHONE - FFB

- **Jean-Denis Forterre**

Manager of the technical department at CAPEB Auvergne-Rhône-Alpes

- **Raphael Housset**

Manager - ATELIER RAPHAEL

[www.eurobois.net](http://www.eurobois.net)

- **Mathieu Hugon**

Manager of the European institute of joinery, fitting-out, and furniture making,  
COMPAGNONS DU DEVOIR ET DU TOUR DE FRANCE

- **Laurent Jacquet**

Video & Web content creator/Building, Home, DIY - BICHON PRODUCTION

- **Jean-François Jaillet**

Manager, Jaillet Menuiserie – Member of the French fitting-out chamber

- **Xavier Luginbuhl**

General Manager - HASAP Group

- **Hervé Marechal**

Fitting-out director - APPORT ANSE

**Student judges' panel:**

- **Diana Almeri**, taking the “Decorator” course at CREAD (College of Interior Architects)

- **Ange Charpentier**, in 2nd year of engineering cycle at ENSTIB (National higher college of timber technologies and industries)

- **Mathilde de Courcy**, taking the “Interior architecture global designer” course at CREAD (College of Interior Architects)

- **Amandine Fontaine**, taking the “Decorator” course at CREAD (College of Interior Architects)

- **Fantine Koch**, in 2nd year at ENSTIB (National higher college of timber technologies and industries)

- **Cecile Soulier**, taking the “Interior architecture global designer” course at CREAD (College of Interior Architects)

- **Geraldine Vincent**, taking the “Interior architecture global designer level 7” course at CREAD (College of Interior Architects)

**EUROBOIS, concerned for the future of the timber & woodworking sector**

The trade show harbours a special commitment to young people, as they represent the professionals of tomorrow.

Aware of the big issue of jobs and training in the timber & woodworking sector, the trade show is hosting the “Eurobois Campus”, an area open to all professionals where visitors can encounter potential recruiters and fellow professionals from the sector. The topic of jobs and training will also be getting a broader airing through conferences on the TV stage.

Here are the companies and innovations competing EUROBOIS AWARDS 2022.

## PAPERSTONE

First composite material made from 100% recycled, FSC® certified paper and cardboard, impregnated with PetroFree™ resin. The latter is obtained from pressed cashew nut shells, so it's goodbye to petroleum-based chemicals.

[HI-MACS ASKA BUGATOOL PAPERSTO – Stand: 6L62](#)

## DUO CROSSFLOW THERMOFORMING STATION

The Global Duo Cross-Flow thermoforming station is an innovative “One-Machine” solution for pre-heating, thermoforming and woodworking applications. The machine combines a Global vacuum membrane press and convection oven in one unit.

[GLOBAL VACUUM PRESSES – Stand: 6K88](#)

## MAXIPRESS M

- Piston system with protected screw thread. The world's only bar clamp using this system
- Ergonomic, interchangeable articulated handle
- V-grooved holding surface for tubes and sections
- Recommended for welding, plasterwork, etc.

[INDUSTRIAS PIQUERAS SA - Stand: 6G29](#)

## PKT CORDLESS NAILER

Self-contained cordless nailer for lengths up to 100mm.

[ALSAFIX - Stand: 6E41](#)

## SYS-POWERSTATION MOBILE ENERGY SOURCE

The SYS-PowerStation mobile energy source supplies long-duration current wherever it is needed. It can drive all mains-powered tools of any make.

[FESTOOL France - Stand: 6E51](#)

## LAMEO

BRISEO hybrid Sections combine the aesthetics of LAMEO wood composite with the mechanical resistance of an aluminium insert. Combining all the characteristics of the LAMEO formula, its applications are near-limitless: decorative exterior cladding, solar shading, peep-through panels, urban furniture, utilities covers, etc.

[BRISEO - Stand: 6J54](#)

## ELV AND ELVP BENCH VICE ELEVATOR

With up to 360° rotation, this device replaces the swivel base of a vice and adds vertical adjustment to achieve an ideal working height. Combats musculoskeletal disorders and enables prolonged use without backache.

[VP DOLEX – Stand: 6E60](#)

[www.eurobois.net](http://www.eurobois.net)

## EXEDRA 2

Very innovative and efficient, Exedra2 takes the Exedra system of foldaway doors to the next level thanks to innovative kinematics that enable the simultaneous opening of two joined doors. Using this system, spaces up to three metres wide can be closed off without a bottom rail.

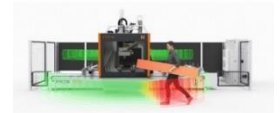

[SALICE France - Stand: 6H44](#)

## SAFEDETECT

System of contactless sensors for operator safety – making its first public appearance at EUROBOIS 2022

[WEINIG - Stand: 5A14](#)

## WISE LED WORKTABLE

Unique LED Solution for positioning suction cups – making its first public appearance at EUROBOIS 2022

[WEINIG - Stand: 5A14](#)

## PROFIMAT 50

Time to make way for the next generation. The new Profimat for planing and profiling, underpinned by WEINIG quality.

[WEINIG – Stand: 5A14](#)

## MAXIPRESS E

[INDUSTRIAS PIQUERAS SA – Stand: 6G29](#)

## TEVA 3D

Web platform offering 3D visualization and validation for use in fitting-out, kitchen layout, and joinery operations.

[CABINET VISION France - Stand: 6G12](#)

## WEB CAB PRODUCTION ASSISTANT

WEB CAB PRODUCTION ASSISTANT is a manufacturing execution system (MES) that helps guarantee improved production outputs by optimizing the execution of manufacturing sequences.

[CABINET VISION France - Stand: 6G12](#)

## THE AVANTECH “YOU” DRAWER WITH LIGHT SIGNATURE

The AvanTech YOU drawer with LEDs gives furniture its own light signature. Customization is a megatrend that is constantly gaining ground, with homes longing for the freedom to individualize kitchen layouts as well as living-room furniture arrangements in general.

[HETTICH France - Stand: 6G60](#)

## CO2 ATMOSPHERE DRYING

This disruptive drying technology enables any timber species to be dried in a carbon dioxide atmosphere in a matter of days, preserving the structure of the material while significantly increasing its durability. The dry timber will have higher quality, remain stable, and naturally sequester volumes of CO<sub>2</sub>.

[WAYS INDUSTRIE - Stand: 5F44](#)

## CRENO CLT-ONE: CLT BOARD MACHINING CENTRE

The CRENO CLT-ONE is designed for machining CLT board with unrivalled productivity, averaging 30 minutes for a floor and 45 minutes for a wall. It machines all six faces thanks to innovative architecture that combines a 5-axis cutter with additional clusters and automated flexible positioning.

[LE CRENEAU INDUSTRIEL - Stand: 6B96](#)

## METAL AND PLASTIC BANDING SHREDDER

Presentation of the 3R programme devised by La Croix Noble!

[LA CROIX NOBLE - Stand: 6F83](#)

## DUAL MIXTE OC

DUAL MIXTE OC is a timber + aluminium concealed leaf window joinery system with external offset glazing and slim sightlines. A compatible range of reveal liners makes installation easy and increases solar capture.

[JOINT DUAL – Stand: 6E88](#)

## OPTICORE AI

A scanner captures the image of a plank with cameras then the plank is analysed by computer to find the customer's most profitable way of cutting it up. It's at the plank analysis stage that artificial intelligence sets to work.

[WEINIG - Stand: 5A14](#)

## ARTEMIS - SINGLE FLUTE SPIRAL ROUTERS

High-tech router cutters intended for sign-makers, joiners, and POS display professionals.

[PRACARTIS GROUP - Stand: 5F46](#)

## CRYSTAL COLLECTION

The elegance of clear crystal meets indoor storage solutions in our Crystal collection. By blending our RAUVISIO crystal surface panels with our RAUKANTEX edge strips and RAUVOLET crystal-line system of cabinet shutters, the result is a unique design.

[REHAU - Stand: 6H72](#)

## ACCUCUT SAWBLADES

AccuCut designs special sawblades with a narrow cutting width and featuring the most recent developments in cutting materials. These innovations extend the battery charge life of cordless electric portable machines.

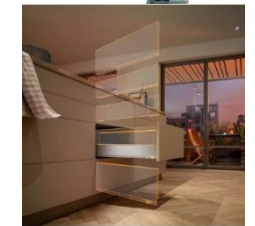

[LEITZ France – Stand: 5C20](#)

## VIKING ARM

The Viking Arm is a third hand ideal for lifting, lowering, and clamping heavy objects.

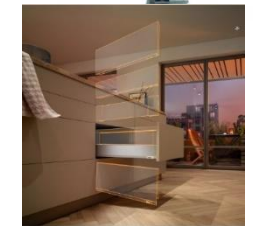

[SCAB - Stand: 6B113](#)

## MERIVOBX

With MERIVOBX, achieving diversity has never been so easy. Making furniture assembly simpler while still offering diversity, that's the goal of the MERIVOBX metal drawer platform!

[BLUM France – Stand: 6K72](#)

## HNC 47.82

Creativity without end and professional-grade precision CNC for amateurs, DIY hobbyists, small businesses, model makers, and schools.

[FELDER GROUP – Stand: 6C114](#)

## SUPERFICI MINI P

Superfici mini p is a plug-and-ready spray system that can be inserted in a production line or used as a stand-alone machine.

[SCM GROUP France – Stand: 5F22](#)

## ABOUT THE ORGANIZER

### GL events Exhibitions

With 200 events organized worldwide for professionals and the general public, GL events Exhibitions has unequalled expertise in organizing exhibitions and trade shows—a business that must stay abreast of increasingly specialized marketing, communication and organizational techniques while retaining close ties with market players. The Eurobois exhibition is organized by the GreenTech+ division of GL events, which also manages eight other major gatherings: BePOSITIVE, Expobiogaz, HyVolution, Horizonia, Open Energies, Paysalia, Piscine Global Europe, Rocalia.

GreenTech+ is the newest division of the GL events group, providing a unique shop window born from the synergy of gatherings that touch on common themes of ecological innovation and sustainable development.

GL events created GreenTech+ to take up a full-time, active part in the world's big environmental issues, with a format unique in its genre that builds bridges between the sectors of the future and maximizes their visibility. GreenTech+ is an accelerator committed to accompanying the sector's stakeholders in their developments and in their search for the solutions of tomorrow, while instilling an ever-greater eco-awareness among our citizens.
